INTERESTS

- Machine learning
- Physics
- Mathematics
- AI

ABOUT ME

I am a passionate, ambitious and hardworking developer, always trying to learn and improve myself. Furthermore, I consider myself a Team Player and creative in my approach to solve problems. A key strength of mine is communication; building strong relationship with people in order to deliver the best results. For the last 8 years I have been developing my skills by learning the coding standards and concepts, regardless of the language itself. I worked on different projects using different programming languages and frameworks, alone and in teams, in which I have learned how to collaborate on code, be consistent in my style of coding and how to maintain a code base of a project.

WORK EXPERIENCE

Senior React Native Developer @ MetaInfo-XR

Feb2023-
Aug2023

- Code base refactoring
- Refactoring the architecture between frontend and backend
- Managed relations between customer and developers
